

Registration form COVID-19-Vaccination

In order to receive a COVID-19-vaccination, you need to fill in this form and bring your Passport as well as your German residence permit. You need to have a place of residence in Germany. In addition, you need to be 18 years or older.

Please bring your international certificates of vaccination (yellow booklet) as well; if you do not have any, our staff will give you a substitute certificate. Please note that this certificate may not be sufficient for international travel to some countries.

We need this information, to register the vaccination correctly. It is also necessary to enable you to apply for a digital European vaccination certificate.

You may apply for a digital vaccination certificate by visiting www.impfportal-niedersachsen.de or calling 0800 / 99 88 66 5 after you have received the vaccination. You are also able to get this certificate at your local pharmacy. For further information, please see www.digitaler-impfnachweis-app.de.

You will receive a vaccination with the vaccine Janssen ® (Johnson & Johnson). With this vaccine, only one shot is needed for full protection, which will come into effect about two weeks after the vaccination.

Please write clearly in printed characters:

1	First name (& middle name)	
2	Last name / Surname
